SUBJECT: NOTICE: Medicare Transaction Facilitator Manufacturer Technical and Systems Calls

The purpose of this memorandum is to notify drug manufacturers impacted by Medicare Drug Price Negotiation that the Centers for Medicare & Medicaid Services (CMS), Center for Medicare is hosting a call on the implementation of the Medicare Transaction Facilitator Data Module (MTF DM). The MTF DM will facilitate the exchange of certain claim-level data elements and claim-level payment elements for selected drugs negotiated under the Medicare Drug Price Negotiation provisions of the Inflation Reduction Act of 2022 (Public Law 117-169). **The systems call will be held on Wednesday, April 23, 2025, from 1 PM to 2:30 PM ET.**

CMS uses systems and manufacturer technical calls to engage with technical experts on topics like system integration, secure data exchange protocols, system user experience, and other critical technical components that will inform the design and functionality of the MTF DM, and to share information and hear feedback from manufacturers on the technical aspects of the Medicare Drug Price Negotiation Program.

CMS welcomes submitted questions before the call, which can be emailed to MFPMedicareTransactionFacilitator@cms.hhs.gov indicating “Discussion Question – MTF April Call” in the subject line.
