### State-based Exchange Qualified Health Plan Public Use Files (SBE QHP PUF) Data Dictionary for Plan Year (PY) 2022

#### Benefits and Cost Sharing PUF

##### Overview of PY 2022 Benefits and Cost Sharing PUF

CMS CCIIO is releasing the SBE QHP PUF to improve transparency and increase access to SBE data. The SBE QHP PUF includes QHPs and stand-alone dental plans (SADPs) offered in states which operate their own Marketplaces that do not rely on the federal platform (<https://www.healthcare.gov/>) for QHP eligibility and enrollment functionality. This includes applicable State Exchanges which operate their own Small Business Health Options Programs (SHOP) with participating issuers.

The Benefits and Cost Sharing PUF (BeneCS-PUF) is one of the six files that make up the SBE QHP PUF. The BeneCS-PUF contains plan level data on essential health benefits, coverage limits, and cost sharing for each QHP and SADP. These data originate from the Plans & Benefits template (i.e., template field), an Excel-based form used by issuers to describe their plans in the QHP/SADP application process and were provided by the National Association of Insurance Commissioners (NAIC) by extracting the information from their System for Electronic Rate and Form Filing (SERFF).

This data dictionary describes the variables contained in the BeneCS-PUF file for each applicable State Exchange. Each record relates to the coverage of a single benefit by one issuer's insurance plan. The BeneCS-PUF is available for applicable State Exchanges for PY 2022.
