

Layout for CY 2024 Proposed Rule Ambulatory Surgical Center (ASC) Payment System Supplier Specific File

These supplier level data are abstracted from an internal file used to calculate the budget neutrality adjustments for the proposed CY 2024 ASC Payment System. This file contains data for ASC services billed in CY 2022 that were eligible to receive payment under the ASC Payment System. We used these CY 2022 claims, along with CY 2023 payment rates and wage indices and proposed CY 2024 payment rates and wage indices, to model payment under the CY 2023 ASC Payment System¹ and the proposed CY 2024 ASC Payment System.

¹In our calculation of aggregate payment to suppliers, we revised 2022 HCPCS codes (where appropriate) to their 2024 status and description using internal 2022-2023, and 2023-2024 crosswalk files.

² In past files we created the supplier identifier values by concatenating the carrier number and provider identification number variables. This identifier has now been replaced by the NPI number.

³ Most covered surgical procedures are subject to a 50 percent reduction in the ASC payment for the lower-paying procedure when more than one procedure is performed in a single operative session.
