Date: February 10, 2025

Subject: CY 2024 Part C Technical Specifications Updated

CMS has updated the Medicare Part C Technical Specifications Document Contract Year 2024 document.

The Plan Benefit Package (PBP) numbering in the **Supplemental Benefit Utilization and Costs Reporting** was inadvertently misaligned.

CMS has updated these reporting requirements as of February 7th, 2025, to ensure a match between the 2024 PBP and the reporting requirements. Please ensure that data submissions are made in accordance with updated reporting requirements.

The updated Contract Year 2024 Medicare Part C Technical Specifications document is posted to the Part C Reporting Requirements webpage at <https://www.cms.gov/medicare/enrollment-renewal/health-plans/part-c>. If you have any questions, please contact PartCPlanReporting@cms.hhs.gov.
