

**MEDICARE-MEDICAID COORDINATION OFFICE**

---

**DATE:** February 28, 2025

**TO:** Medicare-Medicaid Plans in Michigan

**FROM:** Lauren Gavin  
Acting Director, Models, Demonstrations and Analysis Group

**SUBJECT:** Revised Michigan-Specific Reporting Requirements and Value Sets Workbook

The purpose of this memorandum is to announce the release of the revised Medicare-Medicaid Capitated Financial Alignment Model Reporting Requirements: Michigan-Specific Reporting Requirements and corresponding Michigan-Specific Value Sets Workbook. These documents provide updated technical specifications and applicable codes for the state-specific measures that Michigan Medicare-Medicaid Plans (MMPs) are required to collect and report under the demonstration. As with prior annual update cycles, revisions were made in an effort to streamline and clarify reporting expectations for Michigan MMPs.

Please see below for a summary of the substantive changes to the Michigan-Specific Reporting Requirements as compared to the prior version dated February 29, 2024. Note that the Michigan-Specific Value Sets Workbook also includes changes; Michigan MMPs should carefully review and incorporate the updated value sets, particularly for measures MI2.5 and MI5.6.

Michigan MMPs must use the updated specifications and value sets for measures due on or after June 2, 2025. Michigan MMPs must also reference the latest Prevention Quality Indicators technical specifications when reporting measure MI5.1 on April 30, 2025. Should you have any questions, please contact the Medicare-Medicaid Coordination Office at [mmcocapsreporting@cms.hhs.gov](mailto:mmcocapsreporting@cms.hhs.gov).

**SUMMARY OF CHANGES**

**Measure MI2.6**

- Revised the Notes section for data element A to clarify that MMPs should include all members who were enrolled in the MMP at the time of hospital discharge, regardless of whether they were enrolled at the time of admission.

**Measure MI5.6**

- Revised the Notes section for data element C to align with updated specifications from the measure steward (NCQA/HEDIS).
