

## **MDS 3.0 Care Area Trigger Specifications Package (v1.06.0)**

12/21/2022

The following documents are provided in the Care Area Trigger (CAT) specifications package for the updated MDS 3.0 Item Set to be implemented for October 1, 2023. Version 1.06.0 applies to OBRA comprehensive assessments with assessment reference date (A2300) on or after October 1, 2023.

- **MDS 3\_0 CAT Specifications Package 1\_06\_0 (12-21-2022).pdf**

The current document.

- **MDS 3\_0 CAT Specifications 1\_06\_0 (12-21-2022).pdf**

This document provides detailed specifications for the CAT triggers. For each CAT, there is a table of the MDS 3.0 items used in setting the trigger, a verbal description of the set of “Triggering Conditions” based on those MDS 3.0 items, and pseudocode (using SAS syntax) for setting the MDS 3.0 Section V item indicating whether the Care Area is triggered or not. The Section V Care Area trigger indicator items are V0200A01A for Care Area 01, V0200A02A for Care Area 02, etc.

- **CAT Specifications Change Document 1\_06\_0 (12-21-2022).pdf**

Documentation of the CAT specification changes made from V1.05.0 to V1.06.0.

- **MDS 3.0 CAT Test Data Documentation 1\_06\_0 (12-21-2022).pdf**

This is documentation for the test data files included in this package.

- **CAT Test Data Files 1\_06\_0 (12-21-2022).zip**

This is a zip file containing a separate test data file for each Care Area.

- **MDS 3.0 Items in the CAT Test Data Files 1\_06\_0.csv**

This is a comma-delimited file containing a list of all MDS 3.0 items used in Care Area triggering.
