(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)		
F 0880  <b>Level of harm</b> - Minimal harm or potential for actual harm  <b>Residents Affected</b> - Few	<b>Provide and implement an infection prevention and control program.</b>  Based on observation, interview, and record review, the facility failed to implement infection control measures when three staff members did not wear a facemask inside the facility. This failure placed residents and staff at risk for being susceptible in acquiring infectious diseases during the COVID-19 pandemic. Findings: During an observation on 5/28/2020 at 1:16 p.m., at the facility's front lobby, the director of maintenance (DM) was talking on the telephone without wearing a mask. As well as, one resident was in the lobby without a mask. During an observation on 5/28/2020 at 1:32 p.m., two kitchen staff (KS) inside the kitchen were not wearing masks. KS 1 was prepping food and KS 2 was putting away equipment. During an interview with the director of nursing (DON) and administrator (ADM) on 5/28/2020 at 2:00 p.m., they both stated the DM and two KS should have worn facemasks while inside the facility. Review of Centers for Disease Control and Prevention guidelines updated on 5/18/2020 indicated, as part of source control efforts, healthcare professionals (HCP, including kitchen and environmental services staff) should wear a facemask/covering at all times while they are in the healthcare facility.

TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
