

Appendix G – State* Tables

* Identifies state of residence of outpatient therapy patients.

Note: Discussion of these tables is located in section 5.4 of this report.

Note: Variations in gross provider payments compared with the national totals listed in this Appendix are an artifact of 1) rounding payments at the claim level, and 2) estimating institutional paid amounts aggregated at the state level rather than at the individual claim level as described in section 4.3.1 of this report created lower institutional estimates by individual state.
