* The proposed adjustment factor is based on excess readmission ratios from an older performance period of July 1, 2007 to June 30, 2010. It is used as a proxy adjustment for the FY 2013 readmission adjustment factor for the purpose of allowing the public to replicate the proposed methodology to calculate the adjustment factor. For the FY 2013 IPPS Final Rule, we intend to use excess readmission ratios based on the applicable period of June 30, 2008 to July 1, 2011, as finalized in the FY 2012 IPPS final rule.
